VISIT TO

Super Engineer Manufacturing Company

Date: 21/04/2023

Report Prepared by

Prof. Shwetal Jadhav

Report Verified By:

Prof. Pandurang Patil

1. EVENT DETAILS:-

Event Category:	Institutional Level
Event Name	Industrial Visit
Event Type	Co-curricular Event
Description	To observe and understand real-life industrial processes, learn about the latest industry trends and best practices, and interact with professionals in the field
Venue & Date	Super Engineer Manufacturing Company 21/04/2023

2. CONCEPTION OF THE PROGRAMME

Zeal Institute of Business Administration, Computer Application and Research, Narhe, wishes to bridge the gap between academics and industry. The objective of the industrial visit is to provide participants with practical exposure to the operations, processes, and working environment of an industry. It aims to enhance their understanding of the industry and its various aspects. Industrial visits provide opportunities for students to interact with industry professionals, managers, and employees. This networking allows students to establish contacts and build relationships with industry experts, which can be beneficial for future internships, job placements, or collaborations.

COMPUTER APPLICATION AND RESEARCH (ZIBACAR)**
NARHE | PUNE | INDIA

PUN CODE: IMMP013170   DTE CODE: 6152   AISHE CODE: C-41828

Students can also gain valuable career advice and guidance during these interactions.

3. OBJECTIVES

- To provide management students with practical exposure
- To offer students insights into garment industries
- To provide students with the opportunity to interact with industry professionals
- To allow students to observe how management principles and theories are applied in practice
- To enable students to explore different industries, job roles, and career options, helping them make informed decisions

4. PREPARATION OF THE EVENT

The notice was circulated among the student of Zeal Institute of Business Administration, Computer Application and Research for their information. WhatsApp massage Message was circulated as well. Moreover, an undertaking for the same was taken from the students.

5. PARTICIPANTS

About 50 students from ZIBACAR institutes were participated in this visit. Two Faculty members of Zeal Institute of Business Administration, Computer Application and Research accompanied the students to the visit.

6. EXECUTIVE SUMMARY

The industrial visit conducted by Zeal Institute of Business Administration, Computer Application and Research to Supper Engineer Manufacturing Company aimed to provide students with practical exposure, enhance their knowledge, facilitate networking opportunities, and inspire their career choices. The visit allowed participants to observe and understand real-life industrial processes, learn about the latest Industry trends and best practices, and interact with professionals in the field. It emphasized problem-solving skills, highlighted quality and safety standards, and fostered collaboration between academia and industry. Overall, the industrial visit was a valuable experience that bridged the gap between theory and practice, providing participants with a comprehensive understanding of the industry and it's potential.

6. OUT COME OF THE PROGRAM.

The industrial visit is a valuable and enriching experience for participants. It provides practical exposure to real-life industrial processes, fostering enhanced knowledge and understanding of the industry. Participants develop practical skills and gain insights into the application of theoretical concepts in practice. The visit offers networking opportunities with industry professionals, facilitating potential collaborations, internships, and future career prospects

Presentation of Data Structure Concepts

Of

MCA Sem-I

Date: **05/01/2023**

Time: 8:30am - 10:30am

Prepared By:

Dr. Rupali Pawar

Verified By:

Dr. Rajesh Kashyap

Pune-41.

1. EVENT DETAILS

Event Type : Presentation of Data Structure Concepts

Description : Institute level

Title : Presentation on Data Structure Concepts

Organizer : MCA, ZIBACAR

Venue : Zeal Playground

Date & Duration : 05/01/2023, 8.30am to 10:30am

2. CONCEPTION OF THE PROGRAMME

ZIBACAR organized a Presentation on Data structure concepts competition on 05th January 2023 from 8.30am to 10.30am. All the 1 st . year MCA students participated in the competition. The purpose of the program was to clear the basic concepts of data structures e. g. Linked list, Stack, Queue, and Tree etc among students. Six to seven student groups were created and one data structure was allocated for each group. Students were explained the basic concepts of data structure by using different ideas. They explained the basic properties of data structure and operations with the help of live demonstration (e.g . Students stack, queue and tree etc.) students of hidden talent in them of innovative thinking and team building abilities.

3. OBJECTIVES

- To clear the basic concepts of data structure among students.
- To make students familiar with various operations on different data structures.
- To improve the presentation skills of students.
- To encourage students to think in different ways to present their ideas and learn the data structures.

4. OUTCOME OF THE EVENT

- Students were motivated to present different data structures with new ideas.
- Students got knowledge about different data structures.
- Students got a clear idea about different operations on data structures with live demonstration.

5. VENUE

Poster Presentation Report

Date: 09/06/2023

Time: 08.30AM to 9.30AM

Venue: ZIBACAR Library

Topic: Poster Presentations on Data Mining related topics

Presented By: MBA I Sem II students

Guided By: Prof. Kirti Samrit

Judges : Dr. R. M. Patil, Dr. B. J. Mohite, Prof. Sampada Deshmukh, Prof. Bhaskar Lendave

Overview:

MBA I Sem II (Business Analytics) students prepared and presented posters on different topics like Artificial Intelligence, Data Mining, Big Data, Machine Learning etc. Posters were judged by judges. As per the feedback given by judges, posters prepared by students were very informative and had quality of content.

Outcome: All the students come to know that poster presentation is a platform where they can come and present their knowledge on current trends and technologies in Information Technology. This will help them to increase their presentation, clarity of concepts and communication skills.

Briefing on Budgetary Blueprints

AY-2022-23

DATE-22/04/2023

TIME-2.30PM-3.30PM

Prepared By

Prof. Kirti Samrit

Verified By

Prof.Pandurang Patil

OBJECTIVE:

The objective of the "Briefing on Budgetary Blueprints" seminar for ZIBACAR MBA students is to enhance their understanding of the intricacies of the Union Budget. This activity aims to provide students with comprehensive insights into the budgetary process, key components, and fiscal policies outlined in the Union Budget. By engaging in this briefing, students will develop a nuanced understanding of the economic priorities, financial allocations, and policy implications set forth by the government. The goal is to equip ZIBACAR MBA students with the knowledge and analytical skills necessary to critically evaluate and discuss the impact of budgetary decisions on various sectors, fostering a holistic comprehension of the financial landscape and instilling a sense of informed decision-making in their professional pursuits

EXCUTIVE SUMMARY:-

All the finance faculty of ZIBACAR has conducted this activity in seminar hall. Detail information about the union budget has been given to the students.

Total 100 ZIBACAR students was participated in this seminar

OUTCOME:-

1. Enhanced Understanding of Budgetary Processes:
2. Comprehensive Knowledge of Fiscal Policies
3. Holistic View of Financial Landscape
4. Preparation for Professional Pursuits:

* Compare any 5 insurance policies.

[1] Life Insurance -:

This type of insurance provides a death benefit to the insured person's beneficiaries if the policy holder passes away. Life Insurance policies can be of two types term life and permanent life insurance. Term life insurance covers the policyholder for a specified period, whereas permanent life insurance provides coverage throughout the insured lifetime. Premiums are generally lower for term life insurance.

[2] Health Insurance -:

Health insurance policies cover medical or surgical expenses incurred by the policy-holder. Health insurance can be further categorized into individual health insurance and group health insurance policies. Benefits include hopitalization medical consultations, diagnostic tests, and other health related expenses. However, pre-existing conditions may not be covered in some policies.

[3] Auto Insurance -:

This type of insurance covers damages to the policyholder's car, as well as other drivers or properties in the event of an accident. Auto insurance policies can be categorized into liability collision and comprehensive coverage. Cowislon coverage pays for damage caused to the policyholder's vehicle in an accident, while Comprehensive coverage protect

against theft, Vandalism and other damages.

[4] Homeowner's Insurance -:
Homeowner's insurance policy cover the policyholder's property against damage due to natural disaster, fires, break ins, and other events Policies usually include dwelling coverage, personal property coverage and liability coverage. However, some policies may not cover damages caused by floods or earthquakes.

[5] Travel Insurance -:
This type of insurance covers trip cancellation, medical emergencies, lost baggage and other travel-related expenses. Policies can be of two types → Single-trip & annual travel insurance Single-trip policies provide coverage a specific trip whereas annual policies provide Coverage for multiple trips throughout the year However some policies may not provide coverage for adventure sports or high-risk activities
Overall, when choosing an insurance policy, it is critical to compare the coverage and benefits offered by different policies to choose the best-suited one for your needs.

ROLE PLAY ACTIVITY ON ORGANIZATION STRUCTURE

1. ACTIVITY DETAILS

Date	02/01/2023
Activity Category	Institute Level
Activity Name	Class activity
Activity mode	Offline
Venue	ZIBACAR Auditorium
Activity Conducted By	Prof.Kirti Samrit

2. EXECUTIVE SUMMARY:

Through a dynamic role-play exercise, the MBA I students performed activity in Seminar Hall focused on the practical application of organizational structure principles. The purpose of this program was to improve the students' comprehension of leadership responsibilities, organizational dynamics, and the value of clear communication in a professional setting. Through active participation in the planning and execution of a simulated structure in the seminar hall, MBA I students were given an immersive experience. Students had to take on a variety of organizational roles in the role-play scenario, such as team members, leaders, and support personnel. Participants were required to negotiate organizational obstacles, make strategic decisions, and work cooperatively with their peers through the use of this experiential learning approach. The exercise promoted effective teamwork, critical thinking, and problem-solving—three qualities that prospective corporate leaders need to possess.

ASSEMBLY REPORT

Open Learning Space Schedule

Time: 10.45 AM to 11.45 AM

Venue: MCA-I Classroom

Topic: Memories

Presented By: Aditya Lambat and Harshal Patil

Guided By: Dr. Rupali Kalekar

Objectives:

1. To know the importance of memories.

2. To know the learnings, inspiration, motivation from the memories.

3. To relive, recall, and cherish the childhood memories.

4. To know the importance of old days and the valuable memories.

Overview:

Assembly began by Aditya Lambat and Harshal Patil introducing the topic "Memories". Aditya briefed on the memories of life which is the fundamental part of everyone's life and why it is important in our life. Further he explained the importance of memories with real life example. The assembly continued with briefing on the points like why memories matter in our life, good and bad memories, the positive take aways, impact of technologies, etc.

Harshal conducted the activity like "Guess the who ???", where some childhood pictures of faculties and MCA-I students were guessed by the students. After that childhood days were cherished by watching videos, and others videos were also played like childhood cartoons, college days, the Bajaj scooter advertisement to relive, recall, those golden days. Everyone enjoyed those videos and activity.

On behalf of our institute Dr. Rajesh Kashyap, Dr. Rupali Kalekar, Prof. Kirti Samrit addressed the audience on the opted topic of assembly. They also congratulated and appreciated the presenters for their contribution and well presentation during the assembly. Both the presenters were felicitated by MCA faculties.

At the end faculty asked assembly attendees to give the feedback of the assembly.

Outcomes:

The main aim of the assembly was to cherish the childhood days and to make feel the students that why memories are important and why we should create the memories. The session helped the students to relive and recall the childhood days. Presenters of the assembly motivated MCA - I Year students to create memories in each and every second of our life. All the students came to know that every memory is important as we can learn something new every time.

PO's Mapped:

PO1, PO2, PO3, PO4, PO5, PO6, PO7, PO9, PO11

Conclusion:

Memories are a fundamental part of who we are and play an important role in shaping our lives. They help us connect with our past, preserve our culture and heritage, form strong relationships, find emotional support and a sense of purpose, and more.

By engaging with and exploring our memories, we can better understand ourselves and the world around us and use that knowledge to grow and develop as individuals.

Memories

By –
Aditya Lambat (MC222437)
Harshal Patil (MC222450)

Guided By : Dr. Rupali Kalekar

What are memories in our life ?

Memories have always been a mysterious and intriguing entity, not only because we often find our life goals and dreams embedded within them but more than that, memories captures the essence of our lives that cannot be reversed, cannot be transformed and cannot be changed. They can be happy, sad, exciting, or mundane, but they all make up the tapestry of our lives.

Why do memories matter in our life ?

- Lifetime memories are the experiences and moments that are so significant that they stay with us for the rest of our lives. They can be positive or negative, and they can happen at any point in our lives.

- When we are young, everything is new. We are doing so many things for the first time that we form very strong memories.

- But as we get older, we have to work harder to turn events into memories and to benefit from their happiness-inducing qualities.
Why do memories matter in our life ?

- Memories Shape Our Identities
- Memories Provide Emotional Support
- Memories Enhance Our Relationships
- Memories Promote a Positive Outlook on Life
- Memories Enhance Our Sense of Belonging
Memories Shape Our Identities

Memories play a crucial role in shaping our identities and help us understand who we are and where we come from. Memories shape our life stories, beliefs, values, and personality traits and reflect our experiences. When we understand the importance of our memories, we can better appreciate the power of our own personal history.
Memories Provide Emotional Support

Memories can be a source of comfort, especially during difficult times. They remind us of happy moments and give us hope for the future. In this way, memories provide emotional support and can help us process and heal from traumatic experiences. By revisiting happy memories, we can reconnect with our sense of purpose and give meaning to our lives, even when things are difficult in the present.
Memories Enhance Our Relationships

Whether it's a shared experience or a special moment, memories help us hold on to the things that matter most in our relationships. By cherishing and preserving these memories, we can strengthen relationships with those closest to us. Memories are an essential part of the human experience. By reflecting on and sharing our memories with each other, we can create a more meaningful and fulfilling relationships that last a lifetime.
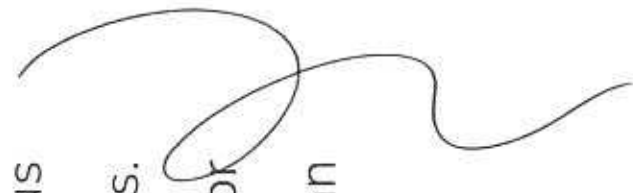

Memories Promote a Positive Outlook on Life

Memories can provide comfort, inspiration, and motivation, helping us maintain an optimistic outlook even in the face of challenges and obstacles. Whether we are reminiscing, creating new memories with loved ones, or reflecting on our personal growth and accomplishments, memories can foster a positive outlook on life and shape our future.

Memories Enhance Our Sense of Belonging

Our memories connect us to our past and the people, places, and experiences important to us. By recalling shared experiences and memories with family, friends, and community, we can feel a sense of closeness and connection that strengthens our sense of belonging to the world.

Memories can be Good or Bad

Good memories are typically those that bring positive emotions and a sense of happiness or satisfaction when recalled.
Bad memories are typically associated with negative emotions, such as fear, sadness, anger, or shame.

Good Memories

- Improve our mood and well-being

- Strengthen relationships

- Provide motivation

- Can help us learn and grow

Bad Memories

- Can cause emotional distress

- Can affect our behaviour

- Can be triggered by environmental cues

- Can be hard to overcome
Guess the who ???

Kabir

Let's Cherish The Memories
Childhood Days
Let's Cherish The Memories
Childhood Cartoons
Let's Cherish The Memories
The Bajaj Scooter
Let's Cherish The Memories
College Days
The Impact of Technologies

Zindagi Na Milegi Dobara

One of the best lessons that the film brought with it was to spread the importance of taking a break in life and also making the memories with friends to cherish for lifetime. The way arjun was buried himself in a tough working schedule while chasing money takes a sharp turn as he goes on a road trip with two of his best friends.

Conclusion

Memories are a fundamental part of who we are and play an important role in shaping our lives. They help us connect with our past, preserve our culture and heritage, form strong relationships, find emotional support and a sense of purpose, and more. *Those were the days*

By engaging with and exploring our memories, we can better understand ourselves and the world around us and use that knowledge to grow and develop as individuals.

PROBLEM SOLVING METHDOLOGIES

QUIZ

Supply & Market Equilibrium

NAME: Supriya Ashok kale

DATE: 21/12/2022

ROLL NO: 2224040

Question 1:

1. What is the definition of supply in economics?

a) The quantity of goods and services that consumers are willing and able to purchase at a given price level.
b) The quantity of goods and services that producers are willing and able to sell at a given price level.
c) The balance between the quantity of goods demanded and the quantity of goods supplied.
d) The total quantity of goods and services available in the market.

ANS: b)

2. What is the law of supply?

a) As the price of a good or service increases, the quantity supplied decreases.
b) As the price of a good or service increases, the quantity supplied increases.
c) As the price of good or service decreases, the quantity supplied increases.
d) The quantity supplied is independent of changes in price.

ANS: a)

3. Which of the following factors can cause a shift in the supply curve?

a) Changes in consumer preferences.
b) Changes in the price of substitutes.
c) Changes in production technology.
d) Changes in consumer income.

ANS: c)

4. Define market equilibrium.

a) The point where the quantity demanded equals the quantity supplied.
b) The point where the quantity demanded exceeds the quantity supplied.
c) The point where the quantity supplied exceeds the quantity demanded.

c) The balance between the quantity of goods demanded and the quantity of goods supplied.
d) The total quantity of goods and services available in the market.

ANS: ___a)___

2. What is the law of supply?

a) As the price of a good or service increases, the quantity supplied decreases.
b) As the price of a good or service increases, the quantity supplied increases.
c) As the price of good or service decreases, the quantity supplied increases.
d) The quantity supplied is independent of changes in price.

ANS: ___c)___

3. Which of the following factors can cause a shift in the supply curve?

a) Changes in consumer preferences.
b) Changes in the price of substitutes.
c) Changes in production technology.
d) Changes in consumer income.

ANS: ___c)___

4. Define market equilibrium.

a) The point where the quantity demanded equals the quantity supplied.
b) The point where the quantity demanded exceeds the quantity supplied.
c) The point where the quantity supplied exceeds the quantity demanded.

d) The point where the government intervenes in the market.

ANS: _____a)_____

5. What happens in a market when the price is below the equilibrium price?

a) There is a surplus, and the quantity demanded exceeds the quantity supplied.
b) There is a shortage, and the quantity supplied exceeds the quantity demanded.
c) The market is in equilibrium.
d) Producers are not willing to sell any quantity.

ANS: _____b)_____

6. How does an increase in consumer income affect the market equilibrium?

a) It causes a leftward shift in the demand curve.
b) It causes a rightward shift in the supply curve.
c) It causes a rightward shift in the demand curve.
d) It has no impact on the market equilibrium.

ANS: _____c)_____

7: What is the role of the price mechanism in achieving market equilibrium?

a) It ensures that prices remain constant.
b) It adjusts prices to balance the quantity demanded and supplied.
c) It increases government intervention in the market.
d) It causes a shortage of goods in the market.

ANS: _____a)_____

8: What is the main idea behind the concept of elasticity of supply?

a) The responsiveness of quantity demanded to a change in price.
b) The responsiveness of quantity supplied to a change in price.
c) The relationship between demand and supply.
d) The government's control over market prices.

ANS: _____b)_____

9: How does technological advancement usually affect the supply of goods and services?

a) It decreases supply.
b) It has no impact on supply.
c) It increases supply.

d) It causes a leftward shift in the supply curve.

ANS: ___c)___

10: Explain the concept of a price ceiling and its potential impact on market equilibrium.

a) A maximum price set by the government, which can result in a surplus.
b) A minimum price set by the government, which can lead to a shortage.
c) A maximum price set by the government, which can cause a shortage.
d) A minimum price set by the government, which can result in a surplus.

Programme-MCA

Class MCA-I Sem-II

Course: OC22 Basics of Tableau

Concurrent Internal Evaluation1: Hands on –Tableau tool

Follow guidelines

1. Identify ANY TWO data sets from Open platform(s) and download them. Suggestive sources (Kaggle, Data world etc)

2. Draw ANY THREE distinct data visualisations using Tableau Tool.

3. Apply Tableau features wherever applicable.

For every 'Viz' write:

     a. Write questions for each data visualisations

     b. Draw Chart/Graph-Viz

     c. Interpretation from Viz

     d. Insert relevant image in Dashbaord

Note:

1. Read following instructions carefully.
2. Submit Assignment of 'Viz' completed during each Lecture.(minimum 5 Basic and minimum 4 Advance 'Viz' expected)
3. Type in MS Word(Format is shared)
4. Font family: Times New Roman
5. Title/headings/sub-headings: 14 point
6. Explanatory text: 12 point (emphasis can be given using italics or underline)
7. Last Date of submission: 20/06/2023
8. Mode of submission: Print on A4 size Paper
9. The dashboard shall look like a story of concerned object or an event. For example, In IPL Cricket dataset, the dashboard may concentrate on the Batman/Bowlers, World record, city's, etc
10. Do not delete first page of the Assignment. Start writing from Page 3. Handwritten assignment is strictly prohibited.
