ACADEMIC YEAR 2021-2022

1. EVENT DETAILS

Start Date	24/7/2021.
Duration	45 Hrs.
Course Name	SAP.
Course type	Add on courses.
Event mode	Online.
Students completing course .	14

2. EXECUTIVE SUMMARY:

We arranged for an SAP (Systems, Applications, and Products) course ,this course is a widely used enterprise resource planning (ERP) software. There are various courses available for different SAP modules, such as SAP FI (Financial Accounting), SAP CO (Controlling), SAP MM (Materials Management), SAP SD (Sales and Distribution), and many others. These courses helped them to develop skills in using SAP software for various business processes. We covered SAP FI (Financial Accounting): This course covers financial accounting processes such as accounts receivable, accounts payable, general ledger accounting, and asset accounting, SAP CO (Controlling): Focuses on managerial accounting processes like cost center accounting, internal orders, product costing, and profitability analysis,SAP MM (Materials Management): Deals with procurement processes including purchase requisition, purchase order, goods receipt, and invoice verification.

OUTCOME:

1. Through this course students learnt how organizations streamline their business processes by integrating various functions across departments. This integration leads to improved efficiency and productivity.
2. Students learnt that It was a centralized platform for managing data, ensuring data consistency and accuracy. This is crucial for making informed business decisions.

Amrendra Kumar Ajay

Qualification : MBA(Marketing), MCA, MCM/MBA(IT), BIT
Total Experience: 15 Yrs in Academics & IT Industry)

Quick summary of my work

14 years of experience in Educational Organization and IT industry. During my service to educational organization as an **Assistant Professor in MM's College of Engineering, MCA Department**, I have taught various subject like - IT Fundamentals, C,C++,Java, DSF, R/DBMS, HTML,CSS,PHP, FRP, Software Engineering and other web technologies to students. Along with the teaching, I have successfully performed various administrative responsibilities assigned to me time to time.

In IT industry my experience includes **Training Freshers and make them ready for development, Designing, Developing and Deploying** the project. I am passionate of **Open Source Technologies and Cloud Computing** and keep myself updating on recent technologies and trends. I am a **fullstack developer** and working **Linux, PHP, MySQL, AJAX,CSS, CSS, JQuery, Bootstrap,HTML** and other supporting technologies since **10 years with the small team & individual** to develop various projects. My recent tech update includes - **MEAN (Mongodb, Express, Angular, NodeJs) stack, ReactJS, Firebase, Python, R-Programming** and its application in the emerging domain such as | Data Science, AI, Machine Learning, IoT etc.

My recent responsibility includes - design, development & deployment of **CloudERP Solution for Educational Organizations**. My recent project includes design & development of **Integrated-Modular-Dynamic website (A default gateway for digital Marketing & eBranding) framework for Educational Organization**. In industry, my expertise includes - **Requirement analysis and solution Architect**. I have successfully done the **System Analysis & Design of ERP Architecture (Heart of ERP System)**, Setting up & maintaining the **VPS (virtual private server)** for development, testing and deployment on **Linux server**, Database Design, Security consideration & implementation, backup & recovery solution and worked on various layers of Cloud Computing.

With this experience, I am confident to identify the correct tools, technologies & methodology suitable for your requirement to build, manage and lead a highly motivational team to deliver the result in the shortest scheduled timeline and budget, by using a directed efforts based on my multi-domain expertise & experience.

REPORT ON
ANGULAR FOR BUSINESS- GREAT LEARNING

Prepared By Madhavi Shamkuvar.

ACADEMIC YEAR 2021-2022

1. EVENT DETAILS

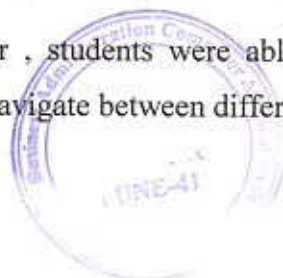

Start Date	25 th September onwards.
Course Duration	30 Hrs.
Course Name	ANGULAR FOR BUSINESS- GREAT LEARNING.
Course type	Add on courses.
Event mode	Online.
No. of students Enrolled	58
No. Of students successfully completing course.	52

2. EXECUTIVE SUMMARY:

We arranged for an ANGULAR FOR BUSINESS- GREAT LEARNING course for students this was an online course , which was conducted by Madhavi Shamkuvar , Angular is a popular framework for building web applications, including business applications. It offers a robust set of features for creating dynamic and responsive user interfaces. Angular's features such as data binding, dependency injection, and component-based architecture make it well-suited for developing complex business applications, following topics were covered Modularity, Dependency Injection, Two-way Data Binding Form Handling, Routing, Built-in HTTP Client.

OUTCOME:

- 1) It helped students to develop Angular's component-based architecture WHICH WILL Allow them to create reusable and maintainable components, which is ideal for building large-scale applications.
- 2) With Angular's built-in router , students were able to create single-page applications with multiple views, making it easy to navigate between different sections of your application.

and Explore the depth in

JAVA easily

Prepared By Madhavi Shamkuvar.

ACADEMIC YEAR 2021-2022

1. EVENT DETAILS

Start Date	30/9/2021
Duration	30 Hrs.
Course Name	Java Programming – Great Learning.
Course type	Add on courses.
Event mode	Online.
No. of students Enrolled	55
No. Of students successfully completing course.	49

2. EXECUTIVE SUMMARY:

We organised full-stack Java development for students, this course helps students to be proficient in both front-end and back-end development using Java technologies. This course will help students gain skills to work on the entire web application development stack, from the user interface to the server-side logic and database management. To become a full-stack Java developer, students need to learn a combination of front-end technologies (like HTML, CSS, and JavaScript) and back-end technologies (like Java, Spring Framework, and SQL).

OUTCOME:

- This course was necessary as The technology landscape is constantly evolving, so it's essential to stay updated with the latest trends and advancements in Java and web development.
- In this course students learnt Java Programming, Front-end Development, Back-end Development.

REPORT ON Front End Development – HTML.

Web Frontend Development

Prepared By Madhavi Shamkuvar.

ACADEMIC YEAR 2021-2022

1. EVENT DETAILS

Start Date	30 TH September .
Course Duration.	30 Hrs.
Course Name	Front End Development – HTML.
Course type	Add on courses.
Event mode	Online.
No. of students Enrolled	53
No. Of students successfully completing course.	48

2. EXECUTIVE SUMMARY:

We arranged for an course for Front End Development – HTML COURSE , this course of HTML is essential for front-end development, as it forms the backbone of any web page. It works together with CSS (Cascading Style Sheets) and JavaScript to create the visual and interactive elements of a website. HTML5, the latest version of HTML, introduced new features and improvements for creating more dynamic and responsive web pages. To learn HTML, you can start with the basics such as understanding the structure of an HTML document, learning about different tags and their purposes, and how to create links and images.

OUTCOME:

- 1) Students were able to create the structure of web pages with this course .
- 2) It provided the basic framework for web content by using a system of tags and attributes to define elements such as headings, paragraphs, links, images, and more.
