

CRITERION 2 – Teaching-Learning and Evaluation

Key Indicator- 2.3 Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process

ZIBACAR believes in the adoption of learner/ students centric methods to enhance student involvement as a part of participative learning and problem solving methodology. Various instructional methods and pedagogical initiatives in online and offline mode are adopted for student centric methods. The faculty provides a platform to students to explore independently, learn through self-study and from their peers, guides them to develop effective and lifelong skills. The faculty adopt active learning by involving students in the learning process more directly through following activities such as Brain storming, quiz, debate, group discussions etc.
