Approved by AICTE New Delhi & Recognized by Directorate of Technical
Education, Maharashtra, Affiliated to Savitribai Phule Pune University, Pune

OUR VISION

To empower society with holistic development through quality education. Every endeavor we undertake, each activity we plan is another step towards achieving.

OUR MISSION

To enrich knowledge with enhanced facilities to help Zeal students structure their careers to a glorious future and to develop the students as a resource within and outside the organization through holistic focus on character building and integral student development through an array of curricular, co-curricular and extra-curricular activities.

Message From Hon. Founder Director

Education is the passport to the future,
for tomorrow belongs to those who prepare for it today

- Malcolm X

Education gives us an understanding of the world around us and offers an opportunity to use that knowledge wisely. During my educational years, I faced some limitations, post which I decided that I would ensure that the future generation should not bear such loss of opportunity. With this thought in mind, on the 23rd March 1996, Zeal kindled the beginning of a new era called Zeal Education Society, at the Hingane campus.

Zeal denotes enthusiasm and this is obvious in every individual present anywhere in the campus. As an educational institution, Zeal has made an exemplary mark in the educational domain. I am proud to have a great team of Faculty members and the entire Zeal family. We have come a long way and still have miles to cover....

To quote Clay P. Bedford,

“You can teach a student a lesson for a day; but if you can teach him to learn by creating curiosity, he will continue the learning process as long as he lives.”

Hon. Shri. S. M. Katkar
Founder Director,
Zeal Education Society, Pune

ZEAL CENTRAL TRAINING & PLACEMENT CELL

Zeal Education Society is considered a global brand in the field of Management & Computer Application Education. Our rapport with the industry is attributed to our alumni who have earned laurels with their technical expertise and sincere accountability. After stamping their class in academic and corporate circles, the alumni of Zeal Education Society today are the managers of business enterprises and IT Hubs playing demanding roles in the industry both in India and abroad. This is testimony to the trust and belief that industry has bestowed on us over the years and more importantly is a commitment from ZES to deliver the best. Apart from being the most active space on campus, the Central Placement Cell (CPC) at Zeal forms the backbone of our robust relationship with the corporates and industry. The reasons are obvious—here is where we train our students for recruitment and life skills and here is where our partners from the industry get the candidates of their choice!

TRAINING PROGRAM

i About Campus Credential

We at Campus Credential (CC) affirm that every student is capable of realizing his/her dreams. We coach, mentor, teach and hand-hold graduating students to ace the complete Campus Recruitment Process right from Aptitude training to mastering GDPI. We have been the consistent choice of Around 90% Management & Computer Application around Maharashtra. Our Philosophy : Every student is equally important for us. No one gets left behind on his/her dreams and career. Every session is designed with utmost care in terms of content and delivery. We believe that great learning happens when students are free to interact and challenge the concepts taught. We specialize in customizing and update our content / mock tests as per the current industry trends and requirements.

COMPREHENSIVE SKILL DEVELOPMENT TRAINING

Course Objective/ Outcome Expectation

Skill Enhancement :

Ensuring students receive the best skill-sets to have a better transition from campus to corporate.

Employability Skills :

To increase their employability value to ensure success in their future endeavours.

Skilled Professionals :

To harness entrepreneurial approach and skill sets.

APTITUDE TRAINING & LIFE SKILLS

Life Skills

MOCK TEST / SECTION TEST / COMPANY SPECIFIC TEST

Mocks cover questions that are commonly asked in top-rated companies. The paper also includes latest trend changes and expected new question formats based on industry inputs. So you can rest assured that your students will be abreast with the ever changing recruitment scenario.

Proposed Training Programs : Full Stack 2.0, Data Science and Analytics, S/W Testing, Web Designing and Scripting, Microsoft Azure, Project Level Implementation.

To write optimized code

Solve Programming Questions with Time complexity

Develop Logic building in Programming

To increase problem solving skills in programming

How To Approach a Coding Problem and also Develop different Approach to solve Programming

Company-wise Coding Questions

How to begin with Competitive Programming

Approach to crack coding challenges

Practice for cracking any coding interview

POINTS TO BE NOTED

- There will be a pre assessment test taken for aptitude and Technical training.
- Based on aptitude training the batches shall be formed.
- The basic technical training (Level 1) focuses towards building the programming and database fundamentals along with data structures. It aims towards preparing the students to obtain the InfyTQ certification and covers the syllabus accordingly.
- Advanced Technical training leads to build the skills in students for optimization in coding, advanced data structures and advanced algorithms. this training focusses on product development profiles and international opportunities that approach the campus.
- Additional career counseling sessions shall be conducted guiding the students for an appropriate job profile/s.
- Refresher sessions shall be conducted just before the placement season starts.
- Reports of student attendance and performance in the classroom, section wise, module wise, full paper tests and company wise tests shall be shared with the college placements departments on regular basis as per the requirement. These reports shall be student wise, batch wise, program wise and campus wise in the formats shared by the college placement department.

Aspiring Minds Campus Employability Program

Assessment technology : AMCAT

Candidates would be evaluated on:

01

English Comprehension

02

Logical Ability, Quantitative Ability

03

Skill Modules, AUTOMATA, SVAR

04

Personality, AM Situations

Assessment technology : Automata

A path breaking innovation to decipher computer programs automatically

Assessment technology : SVAR

Artificial Intelligence and Machine learning to automate spoken English Evaluation

Assessment technology : Write X-Written English Test

Artificial Intelligence and Machine learning to automate Written English Evaluation

AMCAT IMPACT

Strong predictor of Trainability, Success at jobs.

Validated extensively across roles and industry verticals.

Applicable for a span of jobs including vocational, technical, functional and business roles.

Automated and standardized evaluation essential for language proficiency measurement and learning.

Objective scores for various competencies for various job profile levels.

Big-5 based personality evaluation and situation judgment tests ensure reliable and valid evaluation.

A QUICK SNAPSHOT

- A global leader in talent assessments and credentialing.
- Presence and clients across the globe including in the US, China, India, Middle East, Philippines and Africa.
- Driven by data science on millions of assessment data points enabling smart job matching & employability feedback.
- AMCAT is the world's largest job skills credential integrated with platforms such as LinkedIn, Monster.

4 million +
Annual Test Takers
(Proctored)

4000+
Corporate Clients,
100+ Large MNC's

500K+
Job Matches Every
Month

900+
Job Roles Matched,
Cerdentialed

- Backed by venture fund - Omidyar Networks.
- Leading employability research with dozens of patents and publications.
- Repeatedly covered by global media including WSJ, Economist, Financial Times, Forbes, Timesof India, Economic Times, etc.

OUR ASSESSMENTS : SETTING THE STANDARDS

Adaptive

Item Response Theory (IRT) driven statistical assessment technology.

Intelligent and learning system ensures highly accurate evaluation.

Standardized

Accurate and comparable evaluation across location and time.

Establish long term benchmarks of quality.

Reliable

Adhering to global standards reliability and repeatability.

Ensuring un-biased, predictive evaluation.

Large QuestionBanks

High quality, large statistically rated questionbanks.

Evolving with exposure control, automatic filtering, content balancing.

We work with 3000+ corporations across the world...

Master of Computer Applications

Master of Business Administration - Business Analytics

Program Name

Duration

Data Science & Analytics program bundled with Microsoft (DP-900) & Google certification

70 hours
(including projects)

Software Testing

75 hours

Web Designing And Scripting
(using Node.js, Express MongoDB)

60 hours

Microsoft Azure Security
(Bundled Microsoft certification SC-900)

30 hours
(including projects)

Project Level Implementations with Spring
(Live Projects)

90 hours
(including projects)

Microsoft Power BI

40 hours

Data Science & Analytics program bundled with Microsoft (DP-900) & Google certification

Course Duration
70 Hours

Workshop
10 Hours

Course Delivery
60 Hours

OVERVIEW

This course provides practical, foundation level training that enables immediate and effective participation in Big Data and other Analytics projects. It includes an introduction to Big Data and the Data Analytics Lifecycle to address business challenges that leverage Big Data. The course provides grounding in basic and advanced analytic methods and an introduction to Big Data Analytics technology and tools, including MapReduce and Hadoop. The extensive lab sessions provide many opportunities for students to apply these methods and tools to real-world business challenges as a practicing Data Scientist. The course takes an “open” or “technology-neutral” approach, and includes a final lab in which students address a Big Data Analytics challenge by applying the concepts taught in the course in the context of the Data Analytics Lifecycle.

Software Testing

Course Duration
75 Hours

Workshop
08 Hours

Course Delivery
52 Hours

Project Work
15 Hours

OVERVIEW

Software testing job is a highly specialized one and amongst the most sought after fields in the IT industry. Competitive pressures worldwide expect these IT companies to deliver the accurate software the first time itself and therefore, software testing professionals who can perform the precise testing of such software are in great demand today. This course targets this need by training participants through a structured program. This course also introduces various tools that are being used in the software testing. It enables the participants understand the test management techniques and risk analysis involved in software testing.

WEB DESIGNING & SCRIPTING (using Node.js, Express MongoDB)

Course Duration
60 Hours

Workshop
09 Hours

Course Delivery
09 Hours

Project Work
09 Hours

OVERVIEW

This Module deals with all things server-side. The entire module will run around the Node.JS platform. The brief overview of the Web protocols will be provided to the students. On the database side, we review basic CRUD operations, NoSQL databases, in particular MongoDB and Mongoose for accessing MongoDB from Node.JS. We examine the REST concepts and build a RESTful API.

Microsoft Azure Security

Course Duration
30 Hours

Workshop
05 Hours

Course Delivery
15 Hours

Project Work
10 Hours

OVERVIEW

This module will benefit students to identify and develop talent with critical knowledge related to implementing cloud initiatives. It will also lead to learning in demand skills which validates cloud fluency and foundational AWS knowledge.

Project Level Implementations with Spring

Course Duration
90 Hours

Workshop
15 Hours

Course Delivery
60 Hours

Project Work
15 Hours

OVERVIEW

The proposed Training Program will benefit students to become a specialist at Advanced Industrial Technologies. Hands-on Learning with Live Project sessions will build confidence by delivering real time applications. Concepts like Logging with SLF4J & Logback, Lombok, Spring and Hibernate MVC, Configuring Spring and Hibernate with Annotations, MySQL Workbench Basics, Spring and Hibernate JDBC etc. will be focused during training program.

Microsoft Power BI

Course Duration
40 Hours

Course Delivery
30 Hours

Workshop
10 Hours

OVERVIEW

Microsoft Power BI course will help you gain expertise in Business Analytics and throughout the training, you will master the concepts such as Power BI Desktop, Architecture, DAX, Service, Mobile Apps, Reports, Q&A, and many more with industry-relevant use cases.

Performance Management System

20 hours

HR Analytics

22 hours

Payroll Management

20 hours

HR Audit

20 hours

Psychometric Testing and Assessment

22 hours

Performance Management System

Course Duration : 20 Hours

Course Theory
04 Hours

Case Study
06 Hours

Hands on Training
10 Hours

OVERVIEW

“Performance management is the continuous process of improving performance by setting individual and team goals which are aligned to the strategic goals of the organisation, planning performance to achieve the goals, reviewing and assessing progress, and developing the knowledge, skills, and abilities of people.”

Master of Business Administration (MBA)

Specialization : Human Resource Management
Duration : 104 Hours.

HR Analytics

Course Duration : 22 Hours

Course Theory
04 Hours

Hands on Training
18 Hours

OVERVIEW

HR analytics, also referred to as people analytics, workforce analytics, or talent analytics, involves gathering together, analyzing, and reporting HR data. It enables your organization to measure the impact of a range of HR metrics on overall business performance and make decisions based on data. In other words, HR analytics is a data-driven approach toward Human Resources Management.

Payroll Management

Course Duration : 20 Hours

Course Theory
06 Hours

Hands on Training
14 Hours

OVERVIEW

Payroll management is the administrative task of compensating employees for services rendered. It also provides a financial record of employee gross earnings, payroll deductions and net pay, as well as the employer's related payroll tax liability.

HR Audit

Course Duration : 20 Hours

Course Theory
04 Hours

Case Study
06 Hours

Hands on Training
10 Hours

OVERVIEW

In essence, an HR audit involves identifying issues and finding solutions to problems before they become unmanageable. It is an opportunity to assess what an organization is doing right, as well as how things might be done differently, more efficiently or at a reduced cost.

Master of Business Administration (MBA)

Specialization : Human Resource Management
Duration : 104 Hours.

Psychometric Testing and Assessment

Course Duration : 22 Hours

Course Theory
06 Hours

Hands on Training
16 Hours

OVERVIEW

Psychometric tests are assessment tools used to objectively measure an individuals personality traits, aptitude, intelligence, abilities and behavioral style. Psychometric assessments are widely used in career guidance and employment to match a persons abilities and personality to a suitable career or role.

German & Japanese Language Training Program

About ASAP Institute

- ASAP is managed by professional linguists and Language teachers who offer the best German and Japanese language training.
- We are a team of a total of 35 language trainers passionate about language training and cooperating with each other for the best training services.
- Our team has more than 15 years of experience in language teaching, translating, interpreting and editing across the language, cultural and corporate fields.
- We have trained more than 15000 students to date.
- 5400+ students have traveled to Germany and the rest of Europe for jobs or higher studies.
- With a total of 5 centers, we are the largest foreign languages institute in Pune and Maharashtra.

**15000+ STUDENTS
TRAINED**

**15+ YEARS
EXPERIENCE**

**35+ LANGUAGE
TRAINERS**

German Language

1.	Duration of batch (A1) (Goethe/ MMB syllabus)	40 - 50 hrs
2.	No. of students per batch	20 to 60 nos
3.	Days of the batch	Approximately 3 Months for one level
4.	Study material cost per head (Not included in the fees)	Rs. 800/- set Photocopy would cost 200/-

Japanese Language

1.	Duration of batch (N5) (JLPT)	60 hrs
2.	No. of students per batch	20 to 60 nos
3.	Days of the batch	Approximately 3 Months for one level
4.	Study material cost per head (Not included in the fees)	Rs. 700/- set Photocopy would cost 200/-

Certification - ASAP, GOETHE, JLPT

A certificate from ASAP Institute is included in the training cost. For an international certificate, candidates have to pay extra exam fees to Goethe Institute (MMB) for German and to JLPT for the Japanese language after the course is completed. Certificates will be provided to the participants by ASAP Foreign Languages Institute at the end of training.

Study Abroad Assistance

As many of our students are already settled or studying abroad through ASAP's study abroad Consultancy, we could also assist students with the process.

Assessment Process/Exam Details

Before the final exam, 2 model tests will be conducted to make sure that students are well prepared. These model tests will give students an idea about the final exam structure. At the end of the course, an exam will be conducted and this exam will have a similar pattern to the international exams. After passing the exam conducted by ASAP Institute students can apply for international exams and receive an International certificate. The exam will cover all four modules- reading, writing, listening and speaking. The results of these exams will be submitted to the concerned department. One needs to pay separate exam fees for international exams and certifications. For the ASAP Institute certificate, students don't need to pay anything extra than the course fees.

VISION

Transforming Dreams into reality by developing an individual's potentials in the fields of Management through spread of knowledge and wisdom in an intelligent environment.

MISSION

1. by enriching the knowledge and enhancing the facilities through redefining education to help the zealous students to structure their career to the glorious future.
2. By developing students as a source within and outside the organization through holistic focus on character building along with a range of curricular, co-curricular and extra curricular activities.
3. By facilitating a harmonious symphony of excellence in teaching with a motivational approach which shall be synonymous with academic rigor, intellectual discipline and sustained efforts to maximize learning.

OBJECTIVE

Enrich the upcoming young managers & entrepreneurs with contemporary knowledge of management and Communication.

Evolve seamless acquaintance in various technical fields through innovation and research.

Cultivate the effective communication skill for establishing upbeat interaction to inspire leadership qualities in young Candidates.

Setting up excellent facilities and creating an environment for advanced studies in Science and Technology for fostering the innovative ideas linked with globally competitive areas of research.

Nurture lifelong learning practices, ethical and human values in youngsters

Conduct campus outreach programmes for facilitating solutions to practical problems in small scale industries and other occupations including agriculture

REASONING, COMMUNICATION, GROUP DISCUSSIONS AND PRESENTATIONS, THEREBY BRINGING ABOUT AN OVERALL TRANSFORMATION.

FROM THE DEAN – TRAINING & PLACEMENTS DESK

To begin with I would like to thank all the companies that have shown faith in us and also the alumni who have gone far to reach their goals yet kept grounded and always kept in touch and made sure Zeal reaches the heights of incredible academic excellence.

When it comes to Placement, we at Zeal strive to tap the top companies for Pool campus. We have associated with many well renowned companies and Zeal has students all across the world chasing their goals and excelling in life.

Training is an on-going process throughout the year. May it be technical or non-technical training, we offer the best.

The Training and Placement Cell is a well-structured team. It carries out various placement activities in a well-planned manner. The CPC studies and lists various corporate companies in the region, connects with the company, understands their recruitment needs and invites the company for placements to ZES. Further, it makes arrangements for the Placement drive. Students are trained by faculty members of the Life Skills Lab for facing an Interview i.e. an Aptitude test, Group discussion round and a Personal interview round. These trainings are carried out in sync with the Academic calendar. Thus the Life Skills Lab transforms the students into professionals ready for the corporate world. Through the drive, the students are placed according to the recruitment needs of the company.

ABOUT TRAINING :

Trainings are very crucial for successful Placements. Good and proper Training can lead to maximum Conversion. With the help of Right Trainings only we can make students Industry ready. At Zeal Central Placement Cell, our trainings are designed to provide a comprehensive blend of both behavioral and technical skills. Our training program is a continuous process that runs throughout the year, with the goal of bridging the gap between Academia and Industry. Our primary objective is to offer top-notch quality training to our students, enabling them to achieve their academic and professional aspirations. We strive to equip our students with the necessary skills and knowledge to succeed in an ever-changing world.

Soft skills training aims to help individuals improve their communication skills, including verbal and nonverbal communication, active listening, and conflict resolution. It helps develop strong interpersonal skills, including empathy, emotional intelligence, and the ability to build strong relationships with others. These skills are important in many personal and professional contexts. It helps individuals develop leadership abilities such as effective delegation, decision-making, and problem-solving skills.

Whereas Technical Trainings helps to add more weightage in their Resumes helping them stand out of all others and be best in the particular domain or technology. The value added programs supplements students learning and enhances their preparedness to meet the challenges of professional life. These programs enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings. The industry demands in contemporary times has become enormously competitive, the need for skilled professionals possessing diverse persona are best fit to meet the industry demand. Present work environment have become more target oriented, quality determined, skill and competence driven.

TRAINING PROCESS FLOW

OBJECTIVES OF SOFT SKILLS TRAINING

Soft skills provide students with a strong conceptual and practical framework to build, develop and manage teams. They play an important role in the development of the students' overall personality, thereby enhancing their career prospects. The soft skills training provides strong practical orientation to the students and helps them in building and improving their skills in communication, the effective use of English, business correspondence, presentations, team building, leadership, time management, group discussions, interviews, and inter-personal skills. This training also helps students in career visioning and planning, effective resume writing and dealing with placement consultants and head hunters.

The training in soft skills has two parts. One part involves developing attitudes and attributes, and the other part involves fine-tuning communication skills to express attitudes, ideas, and thoughts well. Crucial to successful work is the perfect integration of ideas and attitudes with appropriate communication skills in oral, written, and non-verbal areas. Attitudes and skills are integral to soft skills. Each one influences and complements the other.

The training is conducted in a very informal, interesting, and interactive manner, which gives ample scope for the students to interact with each other and face a wide variety of issues, topics, and situations that they are likely to come across as entry-level managers.

OBJECTIVES OF VALUE ADDED COURSES TRAINING

Technical Trainings helps to add more weightage in Students Resumes helping them stand out of all others and be best in the particular domain or technology. The value added programs supplements students learning and enhances their preparedness to meet the challenges of professional life. These programs enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings. The industry demands in contemporary times has become enormously competitive, the need for skilled professionals possessing diverse persona are best fit to meet the industry demand. Present work environment have become more target oriented, quality determined, skill and competence driven.

- The Value Added Courses aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of engineering students.
- These courses are conducted by professionals and industry experts and help students stand apart from the rest in the job market by adding further value to their resume.
- To improve employability skills of engineering students.
- To bridge the skill gaps and make students industry ready.
- To provide students an understanding of the expectations of industry.
- To provide an opportunity to students to develop inter-disciplinary skills.

Dear Sir,

Greetings of the day!!!

I am writing this letter to express my deepest appreciation and gratitude for the exceptional training you provided **MBA students** during **Retail Departmental Manager** conducted daily in **Offline mode** from **24 May 2023 to 23 June 2023** at **Zeal Institute of Business Administration, Computer Application & Research**. Your expertise, professionalism, and dedication made a significant impact on my personal and professional development, and I feel compelled to acknowledge your invaluable contributions. Furthermore, your commitment to our success extended beyond the training sessions. You provided us with additional resources, recommended further reading, and encouraged us to explore related topics independently. Your dedication to ensuring our continuous growth and development was truly inspiring.

Once again, I would like to express my sincerest gratitude for your exceptional training. Thank you once again for everything you have done. I wish you continued success in your future endeavors, and I hope our paths cross again in the future.
