VISION

Transforming Dreams into reality by developing an individual's potentials in the fields of Management through spread of knowledge and wisdom in an intelligent environment.

MISSION

1. by enriching the knowledge and enhancing the facilities through redefining education to help the zealous students to structure their career to the glorious future.
2. By developing students as a source within and outside the organization through holistic focus on character building along with a range of curricular, co-curricular and extra curricular activities.
3. By facilitating a harmonious symphony of excellence in teaching with a motivational approach which shall be synonymous with academic rigor, intellectual discipline and sustained efforts to maximize learning.

OBJECTIVE

Enrich the upcoming young managers & entrepreneurs with contemporary knowledge of management and Communication.

Evolve seamless acquaintance in various technical fields through innovation and research.

Cultivate the effective communication skill for establishing upbeat interaction to inspire leadership qualities in young Candidates.

Setting up excellent facilities and creating an environment for advanced studies in Science and Technology for fostering the innovative ideas linked with globally competitive areas of research.

Nurture lifelong learning practices, ethical and human values in youngsters

Conduct campus outreach programmes for facilitating solutions to practical problems in small scale industries and other occupations including agriculture

REASONING, COMMUNICATION, GROUP DISCUSSIONS AND PRESENTATIONS, THEREBY BRINGING ABOUT AN OVERALL TRANSFORMATION.

FROM THE DEAN – TRAINING & PLACEMENTS DESK

To begin with I would like to thank all the companies that have shown faith in us and also the alumni who have gone far to reach their goals yet kept grounded and always kept in touch and made sure Zeal reaches the heights of incredible academic excellence.

When it comes to Placement, we at Zeal strive to tap the top companies for Pool campus. We have associated with many well renowned companies and Zeal has students all across the world chasing their goals and excelling in life.

Training is an on-going process throughout the year. May it be technical or non-technical training, we offer the best.

The Training and Placement Cell is a well-structured team. It carries out various placement activities in a well-planned manner. The CPC studies and lists various corporate companies in the region, connects with the company, understands their recruitment needs and invites the company for placements to ZES. Further, it makes arrangements for the Placement drive. Students are trained by faculty members of the Life Skills Lab for facing an Interview i.e. an Aptitude test, Group discussion round and a Personal interview round. These trainings are carried out in sync with the Academic calendar. Thus the Life Skills Lab transforms the students into professionals ready for the corporate world. Through the drive, the students are placed according to the recruitment needs of the company.

PROF. VIRAJ BARGE
Dean Training & Placement

Prof. Pandurang A. Patil

ABOUT TRAINING :

Trainings are very crucial for successful Placements. Good and proper Training can lead to maximum Conversion. With the help of Right Trainings only we can make students Industry ready. At Zeal Central Placement Cell, our trainings are designed to provide a comprehensive blend of both behavioral and technical skills. Our training program is a continuous process that runs throughout the year, with the goal of bridging the gap between Academia and Industry. Our primary objective is to offer top-notch quality training to our students, enabling them to achieve their academic and professional aspirations. We strive to equip our students with the necessary skills and knowledge to succeed in an ever-changing world.

Soft skills training aims to help individuals improve their communication skills, including verbal and nonverbal communication, active listening, and conflict resolution. It helps develop strong interpersonal skills, including empathy, emotional intelligence, and the ability to build strong relationships with others. These skills are important in many personal and professional contexts. It helps individuals develop leadership abilities such as effective delegation, decision-making, and problem-solving skills.

Whereas Technical Trainings helps to add more weightage in their Resumes helping them stand out of all others and be best in the particular domain or technology. The value added programs supplements students learning and enhances their preparedness to meet the challenges of professional life. These programs enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings. The industry demands in contemporary times has become enormously competitive, the need for skilled professionals possessing diverse persona are best fit to meet the industry demand. Present work environment have become more target oriented, quality determined, skill and competence driven.

TRAINING PROCESS FLOW

OBJECTIVES OF SOFT SKILLS TRAINING

Soft skills provide students with a strong conceptual and practical framework to build, develop and manage teams. They play an important role in the development of the students' overall personality, thereby enhancing their career prospects. The soft skills training provides strong practical orientation to the students and helps them in building and improving their skills in communication, the effective use of English, business correspondence, presentations, team building, leadership, time management, group discussions, interviews, and inter-personal skills. This training also helps students in career visioning and planning, effective resume writing and dealing with placement consultants and head hunters.

The training in soft skills has two parts. One part involves developing attitudes and attributes, and the other part involves fine-tuning communication skills to express attitudes, ideas, and thoughts well. Crucial to successful work is the perfect integration of ideas and attitudes with appropriate communication skills in oral, written, and non-verbal areas. Attitudes and skills are integral to soft skills. Each one influences and complements the other.

The training is conducted in a very informal, interesting, and interactive manner, which gives ample scope for the students to interact with each other and face a wide variety of issues, topics, and situations that they are likely to come across as entry-level managers.

OBJECTIVES OF VALUE ADDED COURSES TRAINING

Technical Trainings helps to add more weightage in Students Resumes helping them stand out of all others and be best in the particular domain or technology. The value added programs supplements students learning and enhances their preparedness to meet the challenges of professional life. These programs enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings. The industry demands in contemporary times has become enormously competitive, the need for skilled professionals possessing diverse persona are best fit to meet the industry demand. Present work environment have become more target oriented, quality determined, skill and competence driven.

- The Value Added Courses aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of engineering students.
- These courses are conducted by professionals and industry experts and help students stand apart from the rest in the job market by adding further value to their resume.
- To improve employability skills of engineering students.
- To bridge the skill gaps and make students industry ready.
- To provide students an understanding of the expectations of industry.
- To provide an opportunity to students to develop inter-disciplinary skills.
